RELATIONSHIP TO THE COMPREHENSIVE PLAN: The Tulsa Comprehensive Plan identifies the subject property as part of a "Mixed-Use Corridor" and an "Area of Growth".

A **Mixed-Use Corridor** is a plan category used in areas surrounding Tulsa's modern thoroughfares that pair high capacity transportation facilities with housing, commercial, and employment uses. The streets usually have four or more travel lanes, and sometimes additional lanes dedicated for transit and bicycle use. The pedestrian realm includes sidewalks separated from traffic by street trees, medians, and parallel parking strips. Pedestrian crossings are designed so they are highly visible and make use of the shortest path across a street. Buildings along Mixed-Use Corridors include windows and storefronts along the sidewalk, with automobile parking generally located on the side or behind. Off the main travel route, land uses include multifamily housing, small lot, and townhouse developments, which step down intensities to integrate single family neighborhoods.

The purpose of **Areas of Growth** is to direct the allocation of resources and channel growth to where it will be beneficial and can best improve access to jobs, housing, and services with fewer and shorter auto trips. Areas of Growth are parts of the city where general agreement exists that development or redevelopment is beneficial. As steps are taken to plan for, and, in some cases, develop or redevelop these areas, ensuring that existing residents will not be displaced is a high priority. A major goal is to increase economic activity in the area to benefit existing residents and businesses, and where necessary, provide the stimulus to redevelop.

ANALYSIS OF SURROUNDING AREA: The subject tract abuts CH zoning to the north and east; to the south are RS-3 zoned lots; both OL and CH zoned parcels are to the west. The property is in the Healthy Neighborhoods Overlay boundary.

STAFF COMMENTS:

The applicant is proposing to a liquor store in an existing commercial building. To allow the proposed liquor store the applicant is before the Board requesting a Spacing Verification for a liquor store in a CH district from other liquor stores, plasma centers, day labor hiring centers, bail bond offices or pawnshops (Sec. 40.300-A).

The property is zoned CH and a liquor store is permitted by right in the CH district as long as it meets the spacing requirement of 300 ft. from from other **liquor stores, plasma centers, day labor hiring centers, bail bond offices or pawnshops**. The spacing requirement must be verified before the Board of Adjustment in a public hearing to distribute public notice to property owners within the required distance radius. Surrounding neighbors and property owners are provided the ability to notify the Board of any conflicting uses within the required spacing radius.

The applicant submitted an exhibit measuring 300 ft from the boundaries of the commercial building that will contain the proposed liquor store. The existing businesses and uses of the properties within 300 ft of the site were labeled in support of the verification. Staff visited the site and did not notice any of the above-mentioned conflicting uses within 300 ft. of the subject site.

Language traditionally utilized by the Board in verifying the spacing requirement:

I move that based upon the facts in this matter as they presently exist, we accept the applicant's verification of spacing to permit expansion of the existing liquor store subject to the action of the Board being void should another liquor store or other conflicting use be established prior to the establishment of this liquor store.

Note: Please direct all questions concerning spacing verifications, appeals of an administrative official and all questions regarding (BOA) or (TMAPC) application forms and fees to an INCOG representative at 584-7526. It is your responsibility to submit to our offices documentation of any appeal decisions by an authorized decision making body affecting the status of your application so we may continue to process your application. INCOG does not act as your legal or responsible agent in submitting documents to the City of Tulsa on your behalf. Staff review comments may sometimes identify compliance methods as provided in the Tulsa Zoning Code. The permit applicant is responsible for exploring all or any options available to address the noncompliance and submit the selected compliance option for review. Staff review makes neither representation nor recommendation as to any optimal method of code solution for the project.

Sec.40.300-A: Plasma centers, day labor hiring centers, liquor stores, bail bond offices and pawn shops must be separated by a minimum distance of 300 feet, provided that bail bond offices located within the CBD district are not subject to this separation requirement.

Sec.40.300-B: For uses established after July 1, 2001, the separation distance requirement of *Sec.40.300-A* must be measured in a straight line from the nearest perimeter wall of the portion of the building occupied by one of the subject uses to the nearest perimeter wall of the portion of the building of any other subject use.

Review comment: The proposed use is a liquor store. This will require verification of the minimum 300' spacing between the liquor store and plasma centers, day labor hiring centers, other liquor stores, and pawn shops. Submit a copy of the 300' spacing verification, reviewed and approved, per *Sec.70.110*
